Оториноларингологическое ЛОР кресло Xenon EVO

Description

A new chair with a different philosophy in the wide range of EUROCLINIC fully motorized chairs.

XENON EVO is indeed characterized by a **Telescopic Column** granting a vertical lifting with a wider excursion between the minimum and maximum position, making the chair the best choice for examination both on adults and on children patients, always ensuring an easy access to patients.

The maximum stability is always granted thanks to the 360° rotation (manual) at the base level, lockable/unlockable through a dedicated button on the **foot pedal** that,

activating an **Electronic Signal**, grants an easy and quick rotation, avoiding interruption during the normal working procedures of the Doctors.

Pre settled backrest position at +3° to facilitate ENT examination.

Control of all motorized chair's movements by foot-control (wireless optional) or, if combined to an Euroclinic treatment unit, in wireless remote control from unit's touch screen.

Upholstered single leg–rest, provided with folded **foot-rest with reduced dimensions** (14 cm) and equipped with “over-load” safety system.

All the desired positions can be quickly reached thanks to a multi-functional foot control with possibility to set 3 memories (at customer's choice) along with M0 button to recall entry/exit position.

Xenon Evo is available in many different colors.

Articulated head-rest mechanism to adjust head support in all dimensions (vertical and inclination) for a perfect adaptability to the patient's morphology.

Details

Multifunction foot control

Multifunction foot control (WIRELESS version optional) for the control of each chair's movements, provided with 3 memories: 2 working positions at choice + 1 to recall the resting position of the chair (“zero” position) as well as one button for the electrical locking / unlocking of the chair's rotation. When combined to treatment unit possibility to control the chair by unit's Touch Screen

Column lifting system

Column lifting system allowing maximum stability and a wider excursion between minimum and maximum height.

Movable armrest

The armrest movement is synchronized to the seat one, granting the maximum comfort to the patient.

Bed and Trendelenburg positions

Inclination of the chair when in Trendelenburg position until -26° .

Articulated Headrest

Articulated headrest mechanism for vertical and horizontal manual adjustment.

Technical details

NAME	VALUE
Power supply tension	230 VAC - 50/60 Hz
Low tension motor	24 Vdc
Lifting motor (column) push	4000 N
Backrest motor push	6000 N
Seat motor push	6000 N
Rotation break motor	250 N
Lifting Capacity	300 Kg
Absorbed power	200 VA
Chair weight	120 Kg
