Профессиональное ортопедическое кресло Concept

Description

CONCEPT is a professional podiatry patient chair; it has been conceived to best satisfy the professional's needs. **Versatility, elegance, performance and quality** are the features that identify "CONCEPT" chair.

The chair is equipped with three silent actuators enable the rising-lowering movement and adjust the position of both the back-rest and the seat, through a multifunctional pedal that operates independently on each actuator; moreover, it is possible to select two positions and memorize them.

The leg-rests can be opened until 30° and can be extended; the back-rest, which is electrically moved, can reach a horizontal position; the seat reaches a maximum inclination of more than 20°, allowing the operator to select the Trendelenburg position.

The arm-rests are independent and follow the movement of the back-rest; anyway, they remain parallel to the seat in all selected positions: by that way, the patient's comfort is always granted. Its minimum seat height of 48 cm as well as the maximum height reached by legrests grant to the operator the maximum comfort while performing podiatry activities.

The chair is equipped with two comfortable removable head-rests, and with a pillow which acts as a lumbar support: this could be placed on the seat when in horizontal position, in order to grant a complete comfort to the patient. The upholstery in bi-elastic Sky, with undeforming foam of variable density, grants comfort, quality and long-lasting hygiene. The original design makes the "CONCEPT" unique and undoubtedly new in the podiatry and professional-aesthetic field.

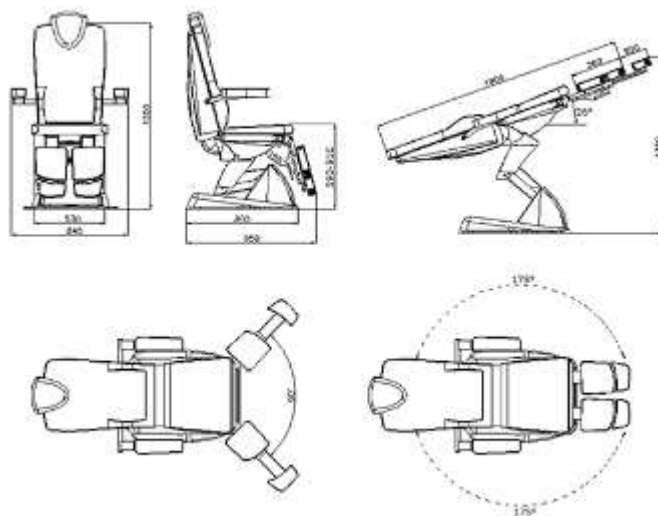

Multi-function foot control

Multifunction foot control (WIRELESS version optional) for the control of each chair's movements, provided with 4 memories: 3 positions chosen by the operator and "zero" position to recall the resting position of the chair. If combined to Treatment Unit possibility to control the chair from Touch Screen.

Kidney Dish Application

Available in stainless steel or plastic

Technical details

NAME	VALUE
Feeding tension	100-240 VAC 50/60 Hz
Low tension motor	24 Vdc
Lifting motor push	6000 N
Backrest motor push	6000 N
Seat motor push	6000 N
Lifting Capacity	200 Kg
Absorbed power	200VA
Chair weight	120 Kg
Base length	800 mm
Maximum legrest height	1350 mm
